

ASIAN-FIT EYEWEAR

Introduction

The image shows a contemporary eyeglass store. The walls are lined with numerous display cases, each containing a pair of glasses. The cases are arranged in a grid pattern, and the glasses are displayed in a variety of colors and styles. In the foreground, there are several dark-colored tables and chairs, providing a space for customers to try on glasses. The lighting is bright and even, highlighting the products. The overall aesthetic is clean and professional.

1 in 4 people
have a **low nose bridge**

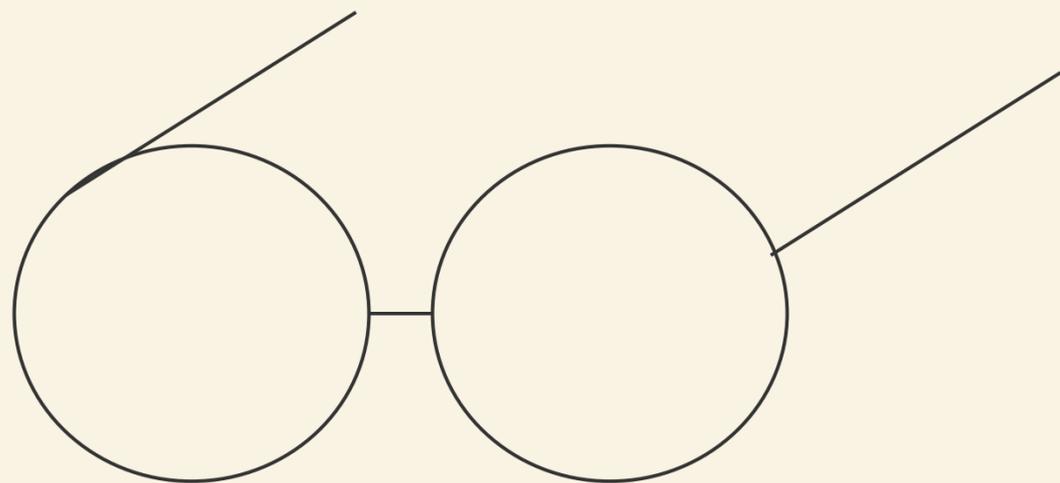

~ 2 billion people

2.2 billion individuals
globally have poor eyesight.

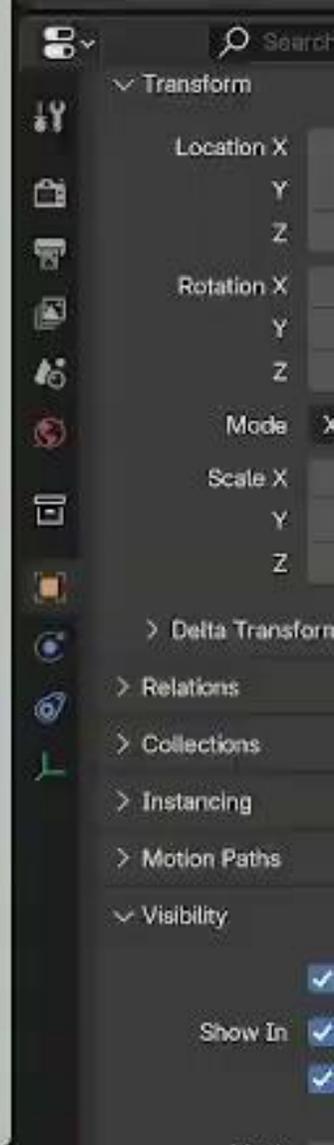

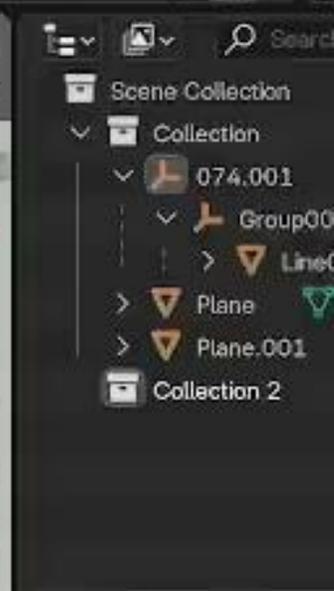

According to the World Health Organization

How might we create
affordable and accessible
“Asian-Fit” glasses?
